#### LSC Covid-19 Re-Opening Rules and Regulations

As we prepare to come back the LSC courts, we must keep in mind that creating a healthy environment for our participants is first and foremost. We are excited to have the kids back in the gym but are taking seriously precautions to open our operations and facility back up to the public.

There is a new normal every day and it changes swiftly. Once we know of a change we will communicate that with you via social media and email. Since our industry is one where we come into contact with each other in closed space we need to take all precautionary measures to adequately protect our participants. As the new normal changes we will adjust, when you are ready to come back, we will be here ready for you.

We cannot thank you enough for your calls, text and emails of such great support during these trying times. Your positive interactions and communications is what kept us going to know that we will make it through this and we will be back and here we are! Thank you

Please see the next page for the new protocols and procedures for the Ladera Sports Center
